

Increasing Apprenticeship Supply

Youth Futures Foundation, Amazing Apprenticeships, and Workwhile are working together to explore the decline in supply of Level 2 and 3 apprenticeships, and turn this learning into programmatic solutions.

The partnership

Youth Futures Foundation, the national What Works Centre for youth employment, is funding this 18-month project to increase the supply of Level 2 and 3 apprenticeships.

Project stages

Investigation: Amazing Apprenticeships will explore the challenges large employers face in supplying Level 2 and 3 apprenticeships. Workwhile will explore the challenges faced by SMEs (Small and Medium Enterprises).

Design and delivery: Amazing Apprenticeships and Workwhile will design and deliver employer engagement programmes and resources to equip large employers and SMEs with support, knowledge and skills to increase their supply.

Collective action: Together, Youth Futures Foundation, Amazing Apprenticeships, and Workwhile will co-design and run a campaign to drive widespread learning and change across the youth employment landscape. The campaign will target an audience of employers, policymakers, and training providers to drive an increase in the overall supply of Level 2 and 3 apprenticeships.
