

# Creating Better Futures

## Help us figure out what works.

Want to solve your recruitment and retention challenges? Strengthen your workforce through diversity? **Work with us.**

Youth Futures Foundation is the national What Works Centre for Youth Employment. Our vision is a society where every young person can achieve good work. This means a society where businesses are stronger.

**We're looking for employers who can be trailblazers in realising this vision for a better future.**

Work with us to **trial promising employment interventions** to help understand and demonstrate what works in supporting marginalised young people to secure and thrive in work. Equipped with the evidence you help to create, we can drive **nation-wide change.**

### We want to work with you to:

- 1 Understand the **challenges you face** in recruiting and retaining a diverse workforce.
- 2 Co-design an intervention that will offer a potential **solution.**
- 3 **Implement** this intervention and **test** whether it works.
- 4 Evaluate how effective this intervention is, and the **benefits** for you as an employer.

If the intervention works, this gives us **evidence** to **inspire** other employers, driving widespread change.

### What's in it for you?

- 1 Free, **bespoke analysis** of your employment policies and practices.
- 2 Our expertise in designing an intervention to support **diverse talent** in your organisation.
- 3 Build your **reputation** as an evidence-focused, innovative trailblazer.
- 4 Demonstrate a meaningful commitment to **social value.**

**Want to learn more? We'd love to hear from you.**
